Singing – Healing – Rejoicing – Giving thanks to Spirit

Singing: *Vee Cantadeu is an excellent singer and voice coach. She used to teach music to teenagers and knows how to make it simple, play- and joyful. You will get basic instructions in singing to sing along with ease, learn uplifting new songs with powerful affirmative lyrics to use further on in your daily life and get special ear training to know what sounds of music serve you best.*

Healing: *Next to Vee Cantadeu's skills and experience the Workshop is based on the philosophy of Ernest Holmes: "The Science of Mind" and books of Louise L. Hay as "You can heal your life". It's structured according to the "5 steps principle" of a spiritual mind treatment. So it includes an introduction into E. Holmes' principle of the Science of Mind and exercises to become aware of personal blocks. You'll be trained how to detect, resolve and release them. Vee Cantadeu is a trained facilitator, teacher and highly intuitive Spirit channel. She'll also be eager in enhancing your ability to listen to your Inner Voice. In a special meditation she'll connect you with your Spirit Guide or Higher Self.*

Rejoicing *Find the trust to explore "the unknown", let go off unnecessary control. You'll feel free and full of joy. Come and find*

Thanks: *your forgotten world of lightness, peace, joy and happiness!*
